

Here are the instructional SLO resources available for *counselors*:

What are SLOs?

SLOs are “student learning outcomes”. The college is making a definite effort to intensify its focus on learning. Each course in the DVC catalog has published SLOs on the web. Typically there are 3 SLOs for each course, covering the main expectations for the course. They can tell a student what to expect from completing that course.

Where to find the published SLOs for DVC course(s)

Find the [online search form](#) on www.dvc.edu, in the “Offices/departments” quick link (or start in any division or department web pages), “Information and publications” navigation menu fly-out, “Student learning outcomes” link, then the “Search and list” navigation link. The form is self-explanatory.

Search for course and program outcomes Previous Page

Home > Offices and departments > Information and publications > SLOs >

List student learning outcomes

for , or

for , or

for Or , or

search for courses with in the description,

or type a course number (e.g., ENGL-122)

updated 10/20/2009 1:40:56 PM

Using the search form to match courses to student interests

The search form can also be used to find courses with specific content. For example, a student might be interested in DVC courses that teach office skills – another might want to learn to play the guitar. Just type a keyword or phrase into the “search for courses with...in the description” box, and a list appears with all the DVC courses whose learning outcomes match. Here’s an example for someone wanting to learn about Adobe Flash programming:

search for courses with in the description,
or type a course number (e.g., ENGL-122)

Results for courses matching [Flash]

1. **ARTDM-175: Flash Interactivity**
The purpose of this course is to develop interactive animated projects.
