Action reports key off of the “Plan activation date” in “column 5” of the eSLOs records for those courses committed to be assessed per the calendar. The “Plan activation date” serves as the “time stamp” for the end of an assessment “cycle” by the department owning the course. Only *one* outcome needs to be assessed in order for a course to be considered to have been assessed as of the plan activation date. It is up to the department to decide how many and which outcomes to assess in any semester.

The ultimate goal for the process is for chairs to enter “Plan activation dates” in eSLOs. A written summary of supporting evidence is also entered in eSLOs, for the faculty SLO committee to use in their quality assurance function. The evidence, in the form of electronic and hard-copy documents, is all stored by department faculty.
